WORK OF CONGRESS.

Lively Time in the Senate on the Tariff Bill.

MR. PLUMB CAUSES A SENSATION.

Senator McPherson Makes a Forceful Statement on the Tariff Bill, Which Sherman Defends Not Very Vigorously.

WASHINGTON, July 25.—In the Senate Mr. Cockrell presented a memorial from St. Louis protesting against the passage by the Senate of the Federal Election Bill. The House bill on that subject was, on motion of Mr. Hoar, referred to the committee on privileges and elections.

The consideration of the House bill to transfer the revenue marine service to the Navy Department was resumed and amendments adopted extending the application of the bill to the life-saving service.

Mr. Cockrell rose to speak on the bill and had not concluded his remarks on the marine bill at 1 o'clock when the tariff bill came up as unfinished business.

On motion of Mr. Aldrich it was agreed that the formal reading of the bill be dispensed with and Mr. Vance proceeded to address the Senate. He said the result of the bill might be to reduce the revenue to a certain extent, but not to reduce the taxes. What the people desired was a common sense reduction of the revenue and a corresponding relief from the payment of taxes. The McKinley bill was an outrage on human patience and an insult to the intelligence of mankind. It neither reduced the revenue in the sense of reducing taxation nor equalized the duties on imports. On the contrary it increased taxation and made the duties more unequal by imposing heavier burdens on the poor than on the rich and by settling a tax on the necessities of life so as to shock the moral sense of every just man.

Mr. Vance went on arraigning the Republican party for the evils which, he claimed, protection had brought upon the country. He quoted from Secretary Blaine's letter to Senator Free and said that the unmistakable wisdom of what that distinguished man had said illustrated the wisdom of what he had left unsaid. If it were important to extend American trade to Central and South America it could not be unimportant to extend it to the people of the European continent which in wealth and population was ten times greater. If once trade with the Latin races is desirable and profitable, no reasoning could show that a little free trade with the people of Teutonic blood was not also desirable and profitable.

Mr. Plumb said that before proceeding to the consideration of the bill by paragraphs he would like to know what the finance committee believed would be the effect of the bill on the revenue.

Mr. McPherson said the almost unanswerable speeches of the Senators from Indiana and North Carolina (Voorhees and Vance) seemed to preclude the necessity of any further defense of the Democratic position. And now the Senator from Kansas (Plumb), in the simplicity of his nature inquired from his own Committee for some information on the bill. Did not the honorable Senator know that for the past three or four days the newspapers have been full of reports that the bill would be a cowardly evasion of the tariff question?

A CHINESE HELD FOR BRIBERY.

Assemblyman Dameron of Los Angeles, Caught and Lodged in Jail—A Bigamist Surrenders—Planning Moll Burned.

A BRIBING CHINESE.

He Attempts to Corrupt a Customs Official.

SAN DIEGO, July 25.—Lung Chung was arrested this evening by a deputy United States Marshal on a charge of bribery. Chung approached customs officer Gunniss and made an offer of \$1000 if he would allow two hundred Chinamen who are now near Ensenada, to come over the line. He also offered \$120 if the officer would allow three of his countrymen to land from the steamer Dublin on Saturday next. The customs officer arranged a meeting with the celestial where he had a deputy consular and when the money was paid arrested the Chinaman, who was placed in jail. Since his arrest the Chinaman has connected the Quong Sow Kee company and the Chee Chung company with the affair.

IN THE HOUSE.

WASHINGTON, July 25.—In the House the committee on invalid pensions ordered a favorable report upon a bill granting a pension of \$2000 per annum to the widow of General McClellan.

The committee on appropriations reported the sundry civil bill with the Senate amendments, with a recommendation that the bill be sent to the committee of the whole. A motion to that effect prevailed. Yeas, 104; nays, 81.

On demand of Mr. Rogers, of Arkansas, the Senate amendments were read in extenso. The reading consumed more than an hour. A short discussion ensued as to the limit which should be placed on the general debate. The point of discussion was the irrigation feature of the Senate amendments. Mr. Breckenridge, of Kentucky, and Mr. Payson, of Illinois, contending that debate should not be limited at this time and Mr. Cannon, of Illinois, and Mr. Sayres, of Texas, agreeing that it was advisable a limitation should be provided.

On motion of Mr. Payson, it was agreed that the general debate on all portions of the bill, except the irrigation amendment, be closed in thirty minutes, and on those amendments an hour's debate be allowed.

Mr. Turner, of New York, made a brief speech critical of the men who controlled the business of the House in slighting the measure reported by the Committee on Labor, and refusing to fix a time for its consideration.

Mr. Breckenridge favored the Senate Amendment which provides for the repeal of the law for selection and location of reservoirs and canals upon the public lands and the reservation of irrigable lands.

Mr. Vandever, of California, opposed the Senate Amendment which he asserted would rebound to the interest of the great land speculators.

Mr. Cannon, of Illinois, opposed the Senate amendment. If adopted, it opened 30,000,000 acres not only to homestead settlement, but to the desert land, timber culture and preemption settlement under which any citizen could take up 160 acres of land. One acre of this land upon which water could be obtained was equal to at least three acres of land in Illinois. If it were adopted all the reservoir sites would be opened under the homestead, preemption, desert lands and timber culture laws.

Pending further debate the committee rose and the House took a recess. Nothing was done at the evening session of the House.

THE SUGAR TRUST.

It Is Being Re-organized By a Committee of Five.

NEW YORK, July 25.—The Trustees of the sugar trust have issued a circular to the certificate holders announcing that Theodore Havemeyer and four others, together with such bankers as they may select, have been appointed a committee to form a new organization for protecting the certificate holders. They have selected the Central Trust Company as the depository for the certificates pending reorganization.

BEHRING SEA QUESTION.

The Situation Generally Regarded as in a Worse Position—Blaine Thought Too Much for Salisbury in a Controversy.

LONDON, July 25.—The *Telegraph* regrets the asperity of the tone of Secretary Blaine in the Behring Sea dispatches. "England," it says, "is strong enough to be calm and courteous and is sufficiently fond of peace to disregard Secretary Blaine's petulance. England has no immediate interest in the question beyond seeing fair play." It concludes with the suggestion that King Humbert of Italy and Emperor William be asked to arbitrate the matter.

The *Chronicle* says: Mr. Blaine proves himself an abler man in controversy than Lord Salisbury, although having a worse case to defend. The representatives of England seem mere babies in the hands of Mr. Blaine. It is obvious that Lord Salisbury at an early period of the discussion became sensible of his inferiority in dialectic skill to his opponent. He lost his temper and deliberately insulted Mr. Blaine by declaring that he conducted the negotiations in the interests of party and not in the interests of the country. Whatever Mr. Blaine's object may be, however, it does not alter the fact that no claim of Russia or America, no admission of John Quincy Adams can convert the vast open sea into a *mare clausum*.

The *Times* says: The correspondence leaves matters worse. Under the sinister influences of party pressure President Harrison and Mr. Blaine have become more exacting and have advanced in an irreconcilable spirit claims about which they once expressed diffidence. The question is now at a dead lock.

All the cloakmakers in New York, who have been on the strike since June 16, resumed work yesterday morning.

Kahn, jeweler, H. Liebes & Co., farriers, and other houses, was arrested tonight for concealing property with intent to defraud his creditors. He sold largely on the installment plan and in this way disposed of goods aggregating in value over \$5000. He refused to make returns for the goods received.

GRATEFUL GLADSTONE.

He Is Pleased With the American Estimate of His Character.

LONDON, July 25.—Through a photograph yesterday Mr. Gladstone listened to remarks from General Sherman and others given at the recent meeting in New York. Mr. Gladstone was deeply interested. He said he was so accustomed to receiving notes of kindness from America that he feared his vocabulary of gratitude had been exhausted. If anything could lead him to question the soundness of American judgment and make him believe Americans liable to be misled from a right understanding of human motive it would be the exceeding warmth with which they are always pleased to frame their views of his character.

BURNED AT SEA.

The Crew of the Steamer Egypt Landed at Dover.

LONDON, July 25.—The crew of the burned steamship *Egypt* were landed at Dover today by the steamer *Manhattan*. They first made their escape from the burning vessel to the German ships *Gustave* and *Oscar*, but were afterward taken off by the *Manhattan*. Captain Sumner, of the *Egypt*, and several of his crew, were painfully burned while fighting the fire. Several of the *Egypt's* crew declared the steamer lacked two of her proper complement of boats. Many of the cattle on the vessel suffocated while others, having roared, rushed overboard roaring madly. The scene is described as horrible in the extreme. The fire originated in some bales of cotton stored just over the boiler.

GERONIMO GROWS GOOD.

He Brings his Squaw and Papoose to Be Baptized.

MR. VERNON, July 25.—Geronimo's squaw and papoose were baptized at St. Thomas church here recently. He brought them himself to the priest for that purpose. The squaw was instructed by the priest and was received into the Catholic church. The child's name is Francisco, Princess of Apaches. Sponsors were chosen from the citizens of the place, who were glad to comply with the chief's wishes. He was dressed becomingly for the occasion and painted in highest colors. A number of Indians have since been brought to the church to be baptized. The babies were baptized but the older ones had to be left over to be instructed for Sacramento.

AFTER THE LOTTERIES.

Congress Contemplates Passing an Anti Lottery Bill.

WASHINGTON, July 25.—The House postoffice committee has agreed upon a substitute bill in lieu of a number of pending bills adverse to lotteries and has ordered it reported to the House. A penalty or fine not exceeding \$5000 and imprisonment not exceeding one year is imposed upon any person depositing a letter containing matter referring to lotteries. The postmaster general is authorized to cause registered letters directed to a company to be stamped "fraudulent," and returned to the sender and may also forbid the payment of money orders addressed to lottery or gift enterprise companies.

TERRIFIC ELECTRICITY.

An Acre Thunder Cloud Rains Cain in Nevada.

CARSON, Nev., July 25.—A. H. Davis has just returned from Jack's Valley and says that another terrific thunder storm passed through that section. A thunder bolt struck sixty feet from him, throwing him out of the buggy. He was knocked senseless and the horse paralyzed for twenty minutes. The rocks upheaved, sand was thrown a hundred feet in the air, trees were torn up and the ground rent ten feet deep. Two Indian boys and two cows are reported to have been killed further up the valley. The thunder cloud was about an acre in area.

GEORGIA SHOOTERS.

THEY LET THEMSELVES LOOSE AT AN ALLIANCE PICNIC.

Two Men Fatally Wounded During the Festival—The Father of One Caught With Three Empty Revolvers.

SAVANNAH, Ga., July 25.—John G. Harris, an ex-United States deputy marshal, and John Cleary were fatally shot at the Farmers' Alliance picnic at Oliver, Ga., today. The shooting was the result of a quarrel over family affairs. Cleary, and his father both shot Harris, who returned the fire, fatally wounding young Cleary. The father started to ride off, but was captured by the Sheriff. He had three revolvers on his person, and all had been emptied.

The Tempe Schools.

County Superintendent of Schools Baxter was in Tempe Thursday, seeking a consolidation of several of the south side districts. Not much progress was made in the consolidation idea, the people of the outlying districts seeming to think that Tempe would reap all the benefits of the change proposed. The residents of the south halves of sections 22, 23 and 24, townships 1 north, range 4 east, petitioned that they might be set off from District 13 and added to the Tempe District (No. 3). This petition was granted by the Superintendent in the face of much opposition, it appearing that the land so set off is nearer to the Tempe school house than to that of District 13.

A FRAUDULENT INTERVIEW.

French Papers Put False Words in Reid's Mouth.

PARIS, July 25.—*La Siecle* and *Figaro* publish an alleged interview with Whitelaw Reid, the American Minister, which makes him denounce the McKinley bill as a measure opposed to civilization and which further repre-

sents him as declaring that it was improbable the citizens of the United States would long endure tariffs and that the increasing difficulties of commerce would imperil the success of the Chicago exhibition. Mr. Reed authorizes an explicit denial of the truth of the interview. He authorizes nobody to speak on the subject in his name. The Secretary of the American legation denies the responsibility of the statements made.

From the *Vallejo Chronicle* of a few days ago, it is gleaned that Mr. Redewill was instrumental in saving the life of Joe Willson, son of S. E. Willson, chief clerk in the construction department at Mare Island and lately in the mercantile business in Prescott. The child had been fishing in the bay and tumbled from the pier into the rushing tide. Mr. Redewill, in his usual impetuous manner, dashed in without even removing his coat and safely brought the lad to shore.

THE DOHENEY MURDER.

THU PRELIMINARY EXAMINATION BEGUN YESTERDAY.

Numbers of Witnesses Examined Before Justice Richards, But No New Facts Developed in The Case.

William Dohoney, charged with the murder of James Dohoney, his father, was brought before Justice Richards, at 4 p. m. yesterday, for examination.

Assistant District Attorney Williams represented the Territory and A. C. Baker defended.

The first witness called for the Territory was Under Sheriff Boyd. He testified to the surrender of the prisoner and to a remark of the prisoner that "the worst has been done, but I could not help it." Deceased came to his death from a shotgun wound—about No. 4 shot. Saw no hat. Deceased had no arms upon his person. Examined the body but a few minutes after the shooting.

H. P. Davenport repeated his evidence given before the Coroner's jury, relative to the prisoner's confession to him.

S. N. Phillips testified to the two shots fired and the discovery of the body. After the first shot heard some one say "Go away and don't bother me."

Heard no word from the persons below. The night was a very stormy one. James Hammond was the next witness. Heard two shots five or eight minutes apart. After the shooting William Dohoney came to his house, near the West End hotel. Defendant said he had hurt his father and asked witness to go for a doctor; said he had discharged a shotgun. Went with defendant to the Sheriff's office.

The case was then adjourned to 2:30 p. m. Saturday.

THEY WANTED TO DIE.

Two Frenchmen Attempt to Commit Suicide.

HEADS FILLED WITH BULLETS.

Fear of the Law for An Unavoidable Act Alleged As the Cause For the Terrible Acts.

LOS ANGELES, July 25.—Two brothers, Louis and Philip Audelet, natives of France, arrived here this afternoon from Newhall and were taken to the county hospital.

Louis had three bullets in his head and Philip had one.

The wounds are the result of a remarkable attempt at double suicide. Philip is in no danger but Louis has small chance of recovery.

The brothers were found on the ground under a tree in Little Cañon, near Newhall, on Thursday night, both wounded and apparently dying.

To Constable Seivert, Louis made the following statement: "Brother Philip and I came here a few months ago and took up a quarter section of land. Last Tuesday evening a fire broke out in the brush near our place and we thought we were going to lose our little cottage, so we started another little fire in front of our home, and made it burn toward the fire that was coming, but our little fire got away from us and joined the big fire and before we knew what
